

Technical specifications of conductive fabric ZT-230-005(PF)

Product name	Material type	Width (m)	Thickness (mm)	Resistivity(Ω /sq)
Cu+Ni fabric	PET/Ni/Cu/Ni	1.08	0.085 \pm 0.02	<0.05
Frequency(Hz)	Shield ing effectivity(Db)	Electromagnetic wave been shielded %		
14K	79.5	99.9999988		
500K	79.0	99.9999987		
300M	86.2	99.9999998		
5G	84.3	99.9999996		
10G	84.2	99.9999996		

Note: Shield efficiency, impedance of clip measurement and flexibility of product of our company are the best ones, it can be used for special shield clothes for high radiation in electronic and electromagnetic industries, special shield cloth of shield room and special cloth of shield parts in IT industry.
