

## **FOLDED STACK DIPOLE ANTENNA (OMNI DIRECTIONAL)**

### **Shipping Size**

2 m x 16kg

### **Description of Product**

Folded stack dipole antenna for frequency band 144-155, 155-164, 165-174 MHz.

The Antenna has aluminium dipole radiators. All hardware and mounting clamp are of M.S.

### **Assembly Procedure**

1. The Antenna is factory tuned and requires no further tuning.
2. Insert the dipole to the boom. Align the holes and tighten with screws provided.
3. Remove connector protection cover.
4. Insert the cable through the mounting pipe and connect cable to antenna.
