

SYNERGY TELECOM P. LTD

LEICA NA300

SPECIFICATION

- 1. The unique design of the Leica NA300 Series of automatic (optical) levels can meet you wherever you are in the building and construction field. With a better protected shape these rugged levels offer increased ergonomic handling while ensuring you receive the highest quality results on the price value.*
- 2. Leica NA300 Series levels have been engineered for daily leveling tasks. Whatever the need, the levels measure with the highest precision and accuracy.*
- 3. A perfectly designed mirror makes it extremely easy to adjust the horizontal level with the highest possible accuracy and confidence.*
